CENTRALLY situated, up-to-date Hotel. Recently renovated, and under entirely New Management. Large and Comfortable Rooms, Excellent Cuisine under the supervision of an Experienced FRENCH CHEF, and separate Tables, Hot and Cold Baths, Electric Light throughout. Terms moderate, First Class accommodation for Families and Tourists.

Under Personal Supervision of
L. GAMEAU, Proprietor. N. BLUMENTHAL, Manager.
Telephone, 190. Telegrams "Astos."

THE "REMINGTON" TYPEWRITER

Is not the cheapest when purchased, but it is the cheapest in the long run, as is proved by the fact that the number of Remingtons sold annually is vastly greater than that of any other make.
It has always been and is to-day the recognized leader among writing machines.
It does the best work and keeps doing it for the longest time.
CAUTION.—Beware of skillfully renovated old Remingtons, sometimes put up in original packing, which are on the market just now. They are offered at low prices and apparently new, but in reality quite worn out and valueless.

THE MADIRA RIVER.

AN AMAZON TRIUMPH.

One morning on the ship, while we were still wondering whether seeing what the river was like and the breathless air, it was worth while to take any notice of the breakfast-bell (again fat bacon, and tinned beans, and butter which was oil full of dead flies), the Rio Madeira came into view. So there we were at last. The rumors we had of this stream as far back as Swansea were a little alarming. The afternoon before we sailed from that port I wanted to visit the town for another look at a bookshop I had nothing of the high spirits and light-hearted anticipation supposed to be the privilege of young adventurers when about to sail for the Spanish Main on a wild quest, giving them uplifted and joyful faces. I had the hump. It was a dull, cold day. The ladder overside to the quay was muddy with wet coals. I rubbed my filthy hands on my coat. Nothing mattered. A group of idlers stood on the quay, regarding our steamer, for because of our strange voyage we were a point of pilgrimage in Swansea Docks. As I passed this group one addressed me. "Good-morning, are you going with her?" said he. "I am," I said.

LIVELY WATER.

Our forebodings, however, as we progressed, and when we arrived at Para the whisper about the far Madeira, that alluring and mysterious but fatal stream of the central jungle, impressed us with a sense of coming calamity. Cautious of the Brazilian pilots did no improve matters. He called the river "the long cemetery." And now the river was in view. We had arrived. Here was the gate to our fate.

We were then, you must remember, well into the continent, and nearly a thousand miles from the sea; so that meeting-places of the Amazon and its chief tributary was an expanse of waters surprising in its immensity. There was as much light reflected from the earth floor as at sea. The forest was its limit, of course, but was so far away that it was hard to believe we were in the centre of a continent, and still streaming towards. On our port beam the jungle was so close that we could trace the individual trees in the mass. But to the south-west, where we were heading for Bolivia, and the north, where were the Guianas, and the east, out of which we had come, and the west, where was Para, the forest barrier, was in low violet heights which varied with distance. In the north-west there was a shining path through the barrier, the way to Manaus. In the south, the forest, broken on its margin by floods, was a line of islands which opened out, was as we progressed, in a series of headlands. Apparently there were three widely-separated entrances to the Madeira, and a number of smaller channels. I am not surprised that, big as are these tributaries of the Amazon, occasionally travellers have found themselves on the wrong river.

THE MUGGLED NORTH.

For my part, after we entered the Madeira, I never gave serious thought. I never found the earth more kind and luscious than when in that tropical river with a bad reputation. I knew, all along, that presently I might be called upon to pay the price for that fortune of intense color and light and humid heat, for the quickening of blood, as though the air there were an intoxicant, stimulating as well as narcotic. For it is but fair, if you are favored by chance with a place in the tropics to expect a shorter life. You cannot look for gain both ways. You have fuller and richer life while you do exist under the sun. It is better than long, long endurance in the lands where there is no sun to speak of, where the north-east wind blows, and Lord Rosborough lectures on Thrift. Because, as to thrift, north-east winds, abstinence, and prudence, it is curious how we praise those who must practise the virtues imposed on them because the riches of earth, not being brood of a generous, as they are in the tropics, are doled out miserably by the few fortunate who hold the earth, in pawn there. As though a man should be praised who submitted himself to be cramped and paralysed, accepting what he was told about the small space adequate for his needs, without looking to see how far off was the horizon.

A BETTER WAY.

Thrift and abstinence! As though the means to death in life, and the pallor and projecting boxes and eyes of a warped and starved existence, were to be regarded as healthy men regard courage, motherhood, rebellion, and May time, and the other evidences of vitality and growth. I have seen it since I went down to the tropics. Instead of spending our money on improving lectures, old age pensions, reform league, university settlements, labor expeditions for propping up broken humanity, it would be better to take bunches of folk out of Bismarck, Ancoats, Hanley, the cottages of Surrey and Sussex, and such places, for one long look, at the sort of earth I have seen this voyage. That would accomplish the whole business. No more talk would be necessary when they returned. In vain the rustmangers and superior persons would chant pathetic verse to hide the noise of chain-forging for the democracy. The common folk whose chilled minds had been thawed in the sun would begin to do things in an inspiring, wholesome way, with hardly a sound, and with shining and understanding eyes.

THE PARCELLED EARTH.

No trips to Algeria, Egypt, or New York ever betray to the tourist that the earth is not a shapeless parcel of fields and buildings, tied up with by-laws, regulations, and prohibitions. New York, for instance, is every bit as ancient as Peking. There, too, is the same dominance of insufferable mandates, the few men, each with a little round button on top, who bamboozle an uneducated and superstitious people with "liberty." Most of the Mediterranean is divided into reservations, all allotted, and dark with human mischief, and not ceasing. You still think, travelling such countries and cities, that the earth is an angular brown-paper parcel in the sky, with an address label, which the sun reads, and directs on its way to heaven in

advance of its own. You still have the feeling which comes over the man in a billycock hat in the grove of the Ranelagh Club, or the modest fellow in the cloakroom at Kuston at the end of August.

It was when I was on the Rio Madeira that I first felt our world was a vast and shining sphere. I saw then, for the first time, an horizon that was an arc which suggested whole regions and constellations in the heavens. Our earth had celestial magnitude. It was warm, like a living body, the abundant rain was richer and the forest, richer in stature and greater limbs than on the Amazon, reared like a monument to life triumphant.

Have I told you what the River Madeira is like? I suppose not. Perhaps you may find it in some geographical manual. But you see what that tropical wilderness did for me. I shall never be the same again. —Y. M. Tomlinson in Morning Leader.

PEN PICTURE OF CRIPPEN.

"WEAKLING WHO WAS A 'LOOKER ON'"
(BY MRS. ADELENE HARRISON, DRAMATIC AND LYRIC AUTHOR.)

Fawley Crippen, the wasted man, has all the natural characteristics of a weakling. He is spare of chest, has a row of shoulders, mazy in height, and devoid of muscle. His protruding eyeballs gave his face at times a meaningless stare, and his loose lips, which a ragged moustache partly hides, suggest animalism. He always took the position of a listener and looker-on.

He never started a conversation, nor did he ever give his opinion on any subject. Silent, unobtrusive, as a host he would watch and attend courteously to every want of his guests, and his fitful laughter was only influenced by some bright say made by his wife.

He would sit apart in a roomful of people with a far away look in his eyes, absorbed in some remote speculation of his own. He seemed to be devoid of vitality and the power to assimilate his interests with the surroundings.

There was an invisible barrier between him and his fellow beings, yet his actions were kindly and thoughtful, and his selfishness repented the timidity of a shy man.

Strange to say, history repeats itself with regard to his desire for secrecy in love affairs, which points to a peculiar trait in his character.

Miss Macnamara's marriage to Dr. Crippen had all the elements of romance attached to it. She visited his surgery for medical advice, and he fell in love with her at first sight, and made an immediate offer. Within a few weeks they were married secretly, and she arrived home one day and informed her mother she was a married woman.

BUSINESS SLACK.

He made a strange statement a week or so before she disappeared to a friend, who found him patiently waiting for his wife at the stage door of the Metropolitan Music Hall, where she was visiting some friends in their dressing room.

Dr. Crippen informed him confidentially in the course of conversation that business had been very slack lately. He was greatly worried, but as his one object in life was to keep back all business anxieties from his wife it was difficult for her to understand his desire for rest and quietude after a long day's anxious work.

He was very handy at all kinds of carpentering, and building. He put up a greenhouse and a summer-house in the garden, and fixed up a high fence above the garden walls to shut out over-lookers.

Belle Elmore made her first stage appearance in England. During her career she appeared at various suburban halls, and she toured the provinces. She paid several extended visits to America and also to the Continent. In her absence the doctor lived entirely alone, doing the housework himself.

Pell: Elmore was a bright little artist, although not very powerful in her acting, she produced a play entitled "The Unknown Quantity," which she afterwards toured.

In one of the scenes she had to hold a sheaf of £5 notes. The doctor's desire for realism was so great that he gave her a bundle of genuine bank-notes, which she left on the stage the first night. Fortunately they were seen by her leading man, Mr. Douglas.

At the time of her death she was having a wonderful time coloured gown made, which was taking a woman months to make.

FOUNDED IN HONOUR.

No doubt you have seen in the cheap papers announcements as "this—concerning some medicine or other." "If, on trial, you write that this medicine has done you no good we will refund your money."—Now, we have never had reason to speak in that way concerning the remedy named in this article. In a trade extending throughout the world, nobody has ever complained that our medicine has failed, or asked for the return of his money. The public never grumbles at honestly and skillfully made bread, or at a medicine which really and actually does what it was made to do. The foundations of

VAMPOLE'S PREPARATION are laid in sincerity and honour, the knowledge of which on the part of the people, explains its popularity and success. There is nothing to disguise or conceal. It was not dreamed out, or discovered by accident; it was studied out, on the solid principles of applied medical science. It is palatable as honey and contains all the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. This remedy is praised by all who have employed it in any of the diseases it is recommended to relieve and cure, and is effective from the first dose. In Anemia, Scrofula, Nervous and General Debility, Influenza, La Grippe, and Throat and Lung Troubles, it is a specific. It is precisely what it is said to be, and has won the confidence of the public on that basis. You may resort to it with a faith and hope that arise from the history of what it has done for others. Dr. Thos. Hunt-Stucky says: "The continued use of it in my practice convinces me that it is the most palatable, least nauseating, and best preparation now on the market." One bottle proves its intrinsic value. "You cannot be disappointed in it." Sold by chemists throughout the world.

NOTICE.

All communications intended for publication in "THE HONGKONG TELEGRAPH" should be addressed to The Editor, 1, Ice House Road, and should be accompanied by the Writer's Name and Address.

Ordinary business communications should be addressed to The Manager.

The Editor will not undertake to be responsible for any rejected MS., nor to return any Contribution.

SUBSCRIPTION RATES (IN ADVANCE)

Daily—\$36 per annum.

Weekly—\$12 per annum.

The rates per quarter and per annum, proportionally.

Subscriptions for any period less than one month will be charged as for a full month.

The daily issue is delivered free when the address is accessible to messenger. Post subscribers can have their copies delivered at their residence without any extra charge. On copies sent by post an additional \$1.80 per quarter is charged for postage.

The postage on the weekly issue to any part of the world is 30 cents per quarter.

Single Copies, Daily, ten cents. Weekly, twenty-five cents (for cash only).

The Hongkong Telegraph

HONGKONG, SATURDAY, AUGUST 20, 1910.

A SABBATH.

In recent Home papers we note that once again there has been a recrudescence of discussion on the everlasting question of Sunday observance. This is a problem which very directly affects the residents of Hongkong, who for a great part of each year are compelled to pursue their daily avocations under trying meteorological conditions and are not inclined to adopt the strict old Puritanical tenets that yet continue to hold sway in many parts of England and especially in Scotland as regards observance of the seventh day. Mr. Wales, the novelist, in a recent book of his, describes the Scottish Sabbath as the most depressing influence in the whole world. On this point, many will be found to agree with Mr. Wales. In some European countries, again, Sunday is regarded not as a day of rest but as an occasion for participating in all kinds of wildness and licence. There, the Sunday is not used for the purposes intended under the Mosaic law, i.e., a recuperative term enabling man to go forth to his work of the following week braced up and feeling like a giant refreshed. Between the extremes of the stern Scottish Sunday and that of the gay Continental cities, there surely is discoverable such a thing as a sane Sunday, unguided by unreasonable rigidity yet unmarred by wantonness of communal conduct. We think it can safely be claimed that Hongkong with all its social faults

and shortcomings has been fairly successful in arriving at this desirable *via media*, considering all things, principally the restricted area in which we live and the difficulty of getting away for a spell from our day-to-day environment. The first authority we have for observing the Sabbath is to be found in Genesis:—"And God rested on the seventh day from all the work which He had made, and God blessed the seventh day and sanctified it." Then we have the authority of the Mosaic law, which prohibited all labour on the seventh day. The Jew made the origin of one day's rest in seven to synchronise with the origin of the human race itself. This one day's rest in seven was not a clumsy mechanical device, fitted on to man from without. It was something belonging to man's nature and constitution. It was no mere afterthought, but something that had its rise with man himself. Looking at what experience has taught us, perhaps the Jew's instinct was right in this matter. One day of rest in seven was, in the view of the Jew, according to the very nature of things. This is borne out by the experience of France, at the time of the French Revolution, when a Goddess of Reason was substituted for the Deity. The French decreed that one day in ten should take the place of one day in seven. What was the result? In time it was seen that one day's rest in ten was insufficient for man's physical needs. The result was that the French revoked their decree and fell back upon one day in seven. Experience thus proved that the Jew was nearer the heart of Nature in his legislation than even the daring and scientific Frenchman. Yet amongst the Chinese, who are an older people and vastly more numerous than either the Jews or the French, there is no weekly day of rest observed. Except at China New Year the Chinese are prepared to, and do, work every day throughout the twelve months continuously. Large employers of labour may tell you that on the whole the Chinese have as many non-working days as the Europeans enjoy, but it is an established fact, that in numberless instances, Chinese who are not required to work on Sundays in European establishments spend the seventh day in working for a compatriot employer. One often hears people in Hongkong complaining of the lack of means of amusement. There is no question that in this respect this Colony compares very unfavourably with other places in the Far East, such as Singapore or Shanghai. If one be desirous of getting away out of the rut and routine of everyday existence for a week-end or even for a single day, one finds that the choice of destination is extremely limited. The only place worth visiting during the sultry, sultry summer months is Macao, which, notwithstanding its salubrious climate, has earned the somewhat questionable title of "the Monte Carlo of the East." It may safely be asserted that very few Sunday visitors to Macao fail to visit the gambling houses, and these places are perhaps as much of an attraction to excursionists from Hongkong as are the invigorating sea-breezes en route to the jaded city worker. Picnic parties, of course, we have always with us and of all available forms of Sunday recreation the picnic is perhaps the sanest and most beneficial, as well as the cheapest. One only requires to look at the number of yachts that traverse the Harbour water of a Sunday to gain a conception of the popularity into which boating has sprung within the past few years. In this connection, it is interesting to recall that some considerable time ago—before the Corinthian Yacht Club was started—the Royal Hongkong Yacht Club was taken to task for Sunday sailing and actually made certain concessions to the "unco guid" as regards the holding of Sunday races. This affords one instance of that over-strict Sabbatarianism which sometimes seems to forget that "the Sabbath was made for man, not man for the Sabbath."

SUMMER SLEEPLESSNESS.

In no country in the world is the ill of sleeplessness more pronounced than it is in Hongkong. Even hardened veterans from still farther southern climes admit that the Hongkong summer is more trying than is the case in regions more contiguous to the Equator and that sleep in these torrid zones is more easily wooed than in the sultry sub-tropical climate of Hongkong. A northern contemporary, in commenting upon this peculiarity of insomnia which besets European dwellers in Far Eastern countries, says:—"In summer, but more especially during sultry weather, many thousands of people suffer from lack of sufficient sleep. They toss and turn about at night, they are tired and irritable during the working hours of the day. They are fit subjects for a 'rest cure,' but they have not the time or perhaps the desire to take it. What is tantamount to a 'rest cure,' however, may be achieved by adopting numerous little changes in one's home and one's habits. A change of bedroom will often secure sleep to the busy brain-worker whose nerves are jarred. Or position of the bed may be altered, and different pictures hung around the room, as to convey the impression of change to the

eye, and thence to the brain. A bright room may be subdued in tone by the use of coverlet and draperies of green linen; a dull room be brightened by the adoption of chineries and floral fabrics. At home, too, the position of the furniture should be changed occasionally, while rooms that are little used in the ordinary run of things should be constantly occupied. Business men, unable to sleep during hot weather, should try the plan of going to town by a different route for a fortnight. The result should be beneficial, owing to the complete change of scene. Let them change, too, their usual luncheon places for a fortnight and go elsewhere. See fresh faces, chat with fresh people. Try a different menu, without, however, making violent departures. In a place like Hongkong we are always thankful for useful hints on the preservation of health and we are sure that the suggestions conveyed in the above cutting are worthy of full consideration by all residents in the East.

LOCAL AND GENERAL.

Mr. Kenneth E. Greig has been appointed a surveyor of boilers of unlicensed steamships under 65 tons burden.

THE Preacher at St. John's Cathedral at Malacca 11 a.m. to-morrow will be The Right Reverend The Bishop of Labuan and Sarawak.

At the present time Malaya has about 100,000 acres under rubber, Ceylon 200,000 Mexico 130,000, Java 80,000, Sumatra 30,000, India and Burma 30,000, Borneo and New Guinea 10,000.

HIS Majesty the King has not been advised to exercise his power of disallowance with respect to Ordinance No. 8 of 1910, entitled—An Ordinance to amend the Squatters Ordinance, 1890.

LICENCES to shoot and take game are due for renewal or issue, on first day of September, 1910. Applicants for such licences, the fee for which is \$10, are requested to give their addresses, and write their names legibly.

THERE was a fight at Bakit K. man, in Raub, the other night, between some Kelantan Malays. It is said that axes were used, resulting in two men being severely cut in the head and face and a woman slightly hurt. They were taken to Raub Hospital in a bullock cart.

IT is the intention of the Governor to make an order, on the 29th January, 1911, directing the removal of all graves in Chai Wan Cemetery which are within the area coloured blue on plan No. 15 (iii) of the said Cemetery, which may be seen during office hours at the offices of the Sanitary Department, Leadenhall, in the City of Victoria.

HIS Excellency the Officer Administering the Government has given his assent, in the name and on behalf of His Majesty the King, to the following Ordinances passed by the Legislative Council:—An Ordinance to amend the Marriage Ordinance, 1875; and an Ordinance to provide for the narrowing, stopping up, diversion, turning or alteration in levels of Highways.

FOR some time past the internal revenue officials have had a suspicion that a Chinaman residing at 99 Calle Looban was dealing in opium, says the *Mandala Calcutta*. They have had detectives of their department watching the house for several days expecting to surprise the inmate removing some of the drug for retail distribution and last night their efforts to break up the game were rewarded by the capture of \$5,000 worth of the contraband drug as two wealthy Chinamen were in the act of taking it to the house in a carromat. The men were at once arrested and the drug confiscated. On identification the men were found to be Tim Kex, a merchant, residing at 150 Calle Jaboneros, and Chua Tu'e, a merchant, 52 Calle Barraca. Where the opium came from has not yet been determined, but it is believed that they had just received it from their caco men who had apparently been removing it from some recently arrived steamer in the bay. It was also found that the house into which they were taking the opium is owned and occupied by William Kennedy, convicted not long ago of smuggling the drug into the city in company with Louis T. Grant, and sentenced together with him to one year's imprisonment.

INTERPORT SWIMMING CARNIVAL.

THE PROGRAMME.

The programme for the interport swimming gala between Shanghai and Hongkong has been definitely arranged. It has been decided to cancel the high dive, owing to the pond in the Hongkong Recreation Ground being unsafe. The divers will be contented as one event but will consist of two items, Running Header from Spring Board and Neat Diving from a height of 10 feet.

The final selection of the Hongkong team will be made on Monday.

September 1st, Municipal Bath, 9 p.m.
100 yards Championship.
Long plunge.

September 2nd, Hongkong Park, 5.30 p.m.
88 yards Championship.
Throwing polo ball.

9 p.m. Municipal Bath:
Neat diving.
220 yards Championship.
One length team race.

September 3rd, Municipal Bath, 2 p.m.
440 yards Championship.
Two lengths team race.
Water polo.

HONGKONG AND SHANGHAI BANKING CORPORATION.

HALF-YEARLY MEETING.

The ordinary half-yearly meeting of the shareholders in the Hongkong and Shanghai Banking Corporation was held at the City Hall, at noon, to-day, for the purpose of receiving the report of the Comptroller of Directors together with a statement of accounts to 30th June, 1910. Mr. G. Balloch, chairman of the Comptroller of Directors, presided. There were also present—Messrs. Robt. Shawan, F. H. Armstrong, J. W. Bannock, Andrew Forbes, Hon. Mr. Henry Keawick, S. A. Levy, F. Lieb, G. H. Medhurst, N. J. Stabb (Acting Chief Manager), R. R. Hynd, J. F. Cox-Edwards, Ho Fook, Lo Cheung Shiu, J. M. E. Machado, F. Smyth, Hon. Mr. Murray Stewart, Chan Tung, J. W. C. Eonour, T. F. Hoogh, W. H. Parcell, D. D. Gaidar, Wong Leung-him, W. Logan, A. H. Ough, J. Barton, Hon. Mr. E. Osborne, A. V. Apcer, Ellis Kadourie, T. F. Yearce, Sir Horatio J. Mody, J. W. Looker, N. M. H. Nomasze, Dr. J. H. Sandoz, H. O. Joaze, G. Friesland, A. E. Griffin, W. Dunbar, Lam Fun Chiu, J. W. Taylor, A. J. G. Pinfret, T. W. Hornby, and R. O. Edwards.

The Acting Chief Manager read the notice convening the meeting.

The Chairman, having read the report for the half-year, said:—"Gentlemen, it is very gratifying to your Directors to be able to add to the long unbroken series, another excellent report of the working of the Bank for the past half year. I feel sure that the operations which I have just read will be regarded by you all as satisfactory in every way and that the distribution of profits recommended by the Board will commend itself to you."

Subject to your approval, it is proposed to pay the usual dividend of £2 per share, to write \$1 lacs off Bank Premises a/c and to add \$500,000 to the Silver Reserve Fund, leaving a balance of \$1,020,390.83 to be carried forward to the new half year—about the same amount as that brought in from the last account.

Following the lines laid down by my predecessor in the chair at the meeting held last August, it is my intention to leave all reference to trade and general business until the end of the year and to confine my remarks to a few comparisons of the figures in the Balance Sheet now before you with those of the two previous half years.

You will notice that our note circulation, as usual, is lower than in December but show very little change from the figures of a year ago, while coin lodged with the Government at security is reduced from thirteen to twelve million dollars. Silver Current Accounts at \$100,000,000 are considerably higher than in both the previous half years. Fixed Deposits in Silver stand at about the same six months ago, and show an increase of some \$5 lacs over the figures of last June. Gold Deposits and Gold Current Accounts taken together are \$400,000 lower than in December, but are not far short of what they stood at a year ago. Bills Payable are \$2½ millions against a similar amount in December and \$1½ millions in June 1909.

On the other side of the account, Cash is a little lower than the previous six months, and \$63 lacs less than in the corresponding period last year but Bullion is held and in transit is \$1,945,000 against \$1,318,000 and \$643,700 in June and December 1909 respectively. There is very little change to record in our investments in Indian Government Rupee Paper during the past year, and Consols, Colonial and Other Securities remain at about the figure they stood at six months ago. Bills Discounted Loans and Credits at \$4,160,000 show advances of \$6 millions over the December and of \$1½ millions over the June figures. The amount of Bills of Exchange re-discounted is considerably larger than for some time past, and this is, to some extent, reflected in the lower figures for Bills Receivable which are \$2½ millions below what they stood at in December and \$5½ millions less than in June last.

The redemption of the National War Loan of which we held £155,000, standing in the books at 90, necessitated some changes in the Sterling Reserve Fund Investments. We purchased £270,000 3½ Exchequer Bonds, due 1915, at 99½, and sold £8,000 Consols to bring our holdings of that stock to a round amount of £1,200,000. As you will see from the Statement of Accounts, Consols have been written down from 82 to 83. Other Sterling Securities—all gilt edged stocks—from £799,940 to £775,403 and the recent purchase of Exchequer Bonds, mentioned above, to 98. This involved an expenditure of £71,700 which was met out of the profits for the half year.

As mentioned in the Report, Sub-Agencies of the Bank have been opened at Ipoh and Johore in the Malay Peninsula.

Although at the outset I proposed to confine my remarks to the accounts, there is one matter outside these which, I think, calls for brief comment. I refer to the recent crisis in the Native money market, in Shanghai, caused by the failures of several Native Banks at that Port. Energetic action was at once taken by the Chinese Authorities, the Native Bankers Guild and the Chinese Chamber of Commerce. The aid of the Foreign Banks was sought and negotiations resulted in their making a loan of Tls. 35 lacs, issued under Imperial Edict, to the Taotai of Shanghai for the assistance of the Native money market. The relief thus afforded had a very good effect and, although business is still restricted, it is hoped that a gradual return of confidence will soon enable Native Banks to resume the granting of reasonable trade facilities.

The only other matter to which I will refer is the departure on leave of the Chief Manager, Mr. J. R. M. Smith, and I am sure you will all join with me and my colleagues on the Board in wishing him a very pleasant holiday. (Applause.) During Mr. Smith's absence Mr. N. J. Stabb has been appointed Acting Chief Manager. (Applause.)

Before moving the adoption of the Report and Accounts as presented, I shall be pleased to answer any questions you may put to the Chair.

There being no questions,

The Chairman moved the adoption of the report and accounts.

Hon. Mr. E. Osborne:—"Sir, The technicalities of Banking, as with every other branch of work, are, to the non-expert, difficult of comprehension; and I suppose that few of us are able to fully understand the complete meaning of the stupendous figures you have just quoted. But whatever may be their precise significance, they nevertheless picture to all of us, in outline clear and forcible, the magnitude of the Bank's operations and the ability with which these operations are conducted. What these figures, condensed into half yearly packets, mean to Bank officials is beyond the power of an outsider to realize; but we may be perfectly sure of this, that they mean to one and all, in varying measure, anxious responsibility, tactful negotiation, unbounded work. Therefore I feel it is but just and fitting, that, in seconding the Report and Accounts, I should ask Shareholders present, to accord a vote of thanks to Directors, Chief Manager and Staff and to congratulate them on the success which has attended their work during the past half year. (Applause.)"

The motion was carried unanimously.

Mr. T. Barton moved the confirmation of the appointment as directors of Messrs. G. H. Medhurst, F. H. Anderson, S. A. Levy, Hon. Mr. Henry Keawick and Mr. Andrew Forbes.

Mr. T. E. Pearce seconded.

Agreed.

The Chairman:—"That is all the business of the meeting, gentlemen. Thank you for your attendance. Dividend warrants will be ready on Monday."

CORRESPONDENCE.

(We do not necessarily endorse the opinions expressed by Correspondents in this column.)

INDIAN EMIGRANTS.

TO THE EDITOR OF THE "HONGKONG TELEGRAPH":

SIR,—In substantiation of the statements of your correspondent under "An Exile" under the heading of "Indian Emigration" in your paper of the 13th inst., I respectfully beg you for a space in your fame possessing paper, in order to insert the following facts:—

Whatever my friend has mentioned as to the condition of these so-called emigrants, how they realize their passage money and how they drop themselves into the hands of their fellow swindlers, the brokers, it is absolutely true that all these emigrants are from the poorer classes of India and thus they have no other means of making up £20 for the passage, except that they volunteer to sell their lands or houses to the rascals off neighbours. They are all ignorant of any kind of knowledge and from this, it could easily be judged as to how much idea of the U.S.A. or the territory beyond they can be expected to possess. Their number is increasing day by day and every steamer of the Indian line brings more varying from a few tens to two or three hundred into the Colony. I learn from the passengers arrived yesterday by the S.S. *Kam Sang* that there were more than a hundred men landed in Hongkong, and that about 300, after hearing the condition of emigration going on in Hongkong have returned back to India from Singapore and Penang. Of those who arrive here not more than 10% pass the Doctor's examination, and even out of these 10%, 30% can hardly be expected to land in the United States, and the rest about 70% have to be brought back to the shores of this Colony again. As I have said they are quite ignorant, and very little blame can be attached to them, but from the point of humanity I beg you to consider their case when they are brought back to the shores of Hongkong and have left nothing of the cash they had procured by a very plausible means. Most of them are deprived of their homes and all lands where they used to live and get a living, for generations, but can have no more access to it now. Is this not far worse than what we call "cruelty"?

Taking the above matter in view the Committee of the Indian Temple, Hongkong, has advised the General Manager of the Pacific Mail Steamship Company, "that more care should be exercised by the company's officers in accepting these passengers; and whenever there is a case of returning of any of the passengers through some disability, the officer who has accepted such disability in such a passenger should be held responsible by the Company and not the poor passenger. Such passenger should be refunded back his money, which he had paid as passage for a certain port where he was not allowed to land. This, I considered impartially, is not the fault of the poor man but of the Company's officer who being well acquainted with the rules and regulations of such port had accepted such a questionable passenger." However, the committee hopes that the Company will consider this point generously.—Yours faithfully,

A SYMPATHISER.

Hongkong, 20th August, 1910.

BENGALIES are quite unsuitable for firemen and if the Ipoh Fire Brigade is to be made efficient the present men must be replaced by Malays or Chinese, says the Ipoh paper. This is rather hard on the Bengalees. For years they have acted as firemen and fought and braved the flames with the primitive means and methods at their disposal, and it is rather late in the day now to say that they are no good at it. It is further absurd to say that because the Singapore Fire Brigade is composed of Malays and Chinese that all divisions should consist of the same classes. Intelligence, discipline and endurance are the principal qualifications needed and the Bengalees do not lack these which is more than can be said of the other two nationalities mentioned.

HONGKONG GYMKHANA CLUB.

The programme of the fourth Gymkhana Meeting to be held at the Happy Valley, on Saturday, 17th September, 1910, (weather permitting) is as follows:—

GYMKHANA STAKES.—Value \$100. Distance one mile. For all China ponies. Catch weights at 10 to 12 lbs. Winners of an open race or open griffin race, 5 lbs. extra. Non-winning subscription griffins allowed 5 lbs. Jockeys who have won more than five races in Hongkong, Shanghai or Tientsin penalised 5 lbs. A cup called the Gymkhana Cup will be presented at the end of the season to be won by the pony scoring most marks in the races for the Gymkhana Stakes at the Gymkhana meetings during the season, counting 4 points for a first; 2 for a second; and 1 for a third. The benefit of marks already scored to pass with the pony on a sale. Any winner of the race to carry 5 lbs. extra for each win in subsequent starts for the race, but in the event of a pony carrying the penalty not winning, 2 lbs. to be deducted next time he starts. Such a lbs. to remain deducted until he wins again when he will carry the full penalties without deduction. Penalties accumulative up to 15 lbs. Entrance fee \$5, and prize \$25. (Half entrance fees to go to winner.)

HALF MILE FLAT RACE.—For all China ponies which have never won a race. Weight for inches as per scale. Jockeys who have won more than five races in Hongkong, Shanghai or Tientsin penalised 5 lbs. Entrance fee \$5, and prize \$25. (Half entrance fees to go to winner.)

TENT PEGGING IN SECTIONS OF THREE.—

Open to teams, mounted on China ponies, and composed of any three members of the Gymkhana Club. Three small cups to be presented to the winning team at each competition and at the conclusion of the season a trophy will be given to the team which scores the highest aggregate of points all meetings included. In competing for the small cups a competitor need not necessarily represent the same team on each and every occasion, but if competing for the aggregate trophy he can only represent one team during the season, that is to say, he must continue to compete for the team first selected by him and for no other. To provide for sickness, absence from the Colony, or for improvement of a team, new members may from time to time be introduced into a team, but in order to win the aggregate trophy two at least of the members composing the winning team must have competed in not less than three competitions. Entrance fee \$4 each man each Gymkhana.

The committee of the Gymkhana Club will appoint a Judge who will judge this competition throughout the season and whose decision shall be final. In the case of illness or absence of any Judge appointed the committee shall appoint a substitute.

KURDEE RACE.—One and a Quarter Miles over not less than eight furlongs of hurdles. For all China Ponies. Catch weights 11st. 7lbs. Jockeys who have never won a jump race in Hongkong, Shanghai or Tientsin allowed 5 lbs. Entrance fee \$5, and prize \$25. Entrance fees to go to winner. Entries for this race will close on Saturday, September 3rd at the Hongkong Club at 7 p.m. If less than eight entries are received it shall be discretionary to the Committee to substitute some other event, particulars of which to be notified in due course.

LADIES' NOMINATION. "ROYAL ACADEMY STAKES." Gentlemen will start from a given point "A," ride to another given point "B," dismount, and leave ponies with mifoo; run to lady nomination and hand her sealed envelope containing name of some animal; immediately return to point "B." Mount pony and go back to point "A." On a given signal return to point "B," dismount, leave pony with mifoo, run to blackboard bearing corresponding number to that on his envelope and card name of animal he guesses is drawn upon blackboard by his lady nomination, and run with card to Judge. Envelopes, cards and pencils will be handed to competitors before starting. First man home with card bearing correct name wins. A number of blackboard easels will be placed on the course, each bearing a distinctive number. Each lady will be provided with a piece of chalk. On receiving envelopes from gentlemen as above mentioned, ladies will proceed to blackboard bearing the same number as that on her envelope. She will open envelope and draw upon blackboard the animal named in envelope. Five minutes will be allowed for drawing. At a given signal ladies will leave the course. The likeness to the original of the animal portrayed will be taken into consideration. Ten and 20 p.m. presented by Gymkhana Club. No assistance must be given by ladies to gentlemen or vice versa.

ONE AND A QUARTER MILE FLAT RACE. HANDICAP.—For all China Ponies. Jockeys who have won more than 5 races in Hongkong, Shanghai or Tientsin penalised 5 lbs. Entrance fee \$5. First Prize \$25. (Entrance fees to go to winner.)

It is whispered, says our Ipoh contemporary, that the Ipoh Courts may shortly be the scene of the hearing of another alleged mine case.

THE new motor boat for Fabang has been named Tungku Miriam after the Regent's wife. It is a steel canoe similar to those which have been running on the cross river in Southern Nigeria. The Fabang boat is 63 ft. 20 in. in length with a moulded breadth of 9 ft. and a depth of 2 feet 9 inches. With a load of 4 tons she draws but 14 inches of water. Her speed is 11.03 miles per hour with a load of four tons and 6.3 miles an hour with a load of a ton and a half.

NOTES BY THE WAY.

VOLUNTEERING TOPICS.

Of recent days, the good folk of the Colony were under the strong impression that that one-time noble institution known as the Hongkong Volunteer Troops which first saw the light of day amid so much *clat*, had lately become deluged, owing to lack of interest among its members, but many dissentients came forward and attributed the untimely end of the worthy organization to other causes which they scarcely thought worth while to enumerate. They calmly assured their opponents that they were suffering from a snare and a delusion and that they were all aware of the fact that the hope of redemption for refusing to see through the same spectacles. In other words, they were generally afflicted with a mental aberration which must have been tragic to the extreme for there is little doubt that the veiled exaltation which was manifested by the general body of the public on being informed of the unceremonious exit of the "Happy Valley Hussars" proved somewhat distasteful to the sensitive feelings of the patriotic champions. I am tempted to ask myself the question whether those who would see volunteering as not leading a forlorn hope. We have been given more than one opportunity to convince us that there are many who regard volunteering in the nature of a sport, who have a mighty poor idea of what an action is like and whose position if they were suddenly to find themselves under fire would very probably be one of bewildered helplessness. And further, it is scarcely an exaggeration to say that there are many, who, if handed a rifle at any shooting range, would in all likelihood not know what to do with it. But as I wish to escape the charge of finding fault with a thing without a corresponding effort to suggest remedies, how would it do to disband all existing volunteer organizations and devote the large amount expended on them annually in increasing the standing army as a sort of reserve force. With all humility, I would recommend the idea to Mr. Haldane, with particular reference to Hongkong. I might possibly be accused (I being too ambitious in my views) but then, if my idea were to be carried out, matters would not be worse than what they are already, with this little difference—that there would be some semblance of security in place of the uncertain trepidations as matters are at present.

THE STORY OF ANOTHER WONDERFUL ORGANIZATION.

In treating the public to strange surprises, the authorities apparently scoffed at the idea of proceeding in a disreputable fashion, but evidently believe in keeping them on their toes. With what might be called surprise, the news which was so gently broken by our O.A.G. the other day that the Hongkong Volunteer Reserve Association was to be wound up and re-started under another name (I forget the name) must have been received by the local patriots. At an extraordinary meeting of the Association which was held at the City Hall last Wednesday, the popular Irish gentleman delivered a feeling oration on the duties of citizenship and when the proceedings terminated, everybody went away feeling satisfied that British prestige is very far from being in jeopardy so long as our noble citizens are willing to attend drills and join Volunteer Reserve Associations. All of which sounds extremely gratifying, but in spite of these commendable efforts to diffuse patriotism broadcast, one cannot very well ignore the fact that something very nearly as preaching half a lakh of dollars is expended annually on volunteering in Hongkong. In face of that, what have been the results so far achieved by our citizen soldiers? Surely not the annual force carried out to the frontiers?

A REMARKABLE DINNER.

And then on the very next day following the Governor's speech, a dinner was given at a local hotel where post-prandial addresses are made in connection with the "Scotch" who are judging from the trend which things are taking, shortly to be fitted on us. It would seem that one useless organization is no sooner got rid of than another gaily chips in; the one makes way for the other, as it were. Somebody, usually the Governor, starts the thing with as much pomp and ceremony as possible and after making a lot of noise, gracefully retires from the scene and leaves priority to receive whatever rude shocks there may be in store for them. If a stranger were to peruse an account of these patriotic proceedings, the first impression he would doubtless derive from it would be that the Colony was preparing for some inevitable Armageddon which was to hurl itself with all the fury at its command on the distracted citizens. At all events, "Bobs" would have nothing to complain about.

THE LATEST DISCOVERY.

Local discoveries are evidently not confined within the narrow limits of tigers who leap thirty feet into the air and who dig their own graves. Neither are they circumscribed by the advent of human beings from cows. According to a very reliable source of general information, one more wonder was added to the Colony and to the world the other day in the shape of a pig with "two bodies, eight legs, two tails and one head." In every other way, this monstrous resembled other ordinary pigs, except in the matter of its head, which was a trifle larger in proportion to its body, and this was "not to be wondered at since it had to supply the grubbing capacity for two bodies had it lived." This strange freak of Nature was to be presented to the local museum. Let us hope the same uncertain fate will not befall it as was the case with the precious skin of the Kowloon tiger. The only pity is that the public is not afforded greater facilities to behold these truly remarkable products of creation.

A LEGAL QUESTION.

The Law Society of London has of late been greatly perturbed by fierce attacks on the honour of the profession from high quarters. At a recent meeting of the Society, a resolution was moved protesting against the attack made upon the society by the Chancellor of the Exchequer in a recent speech in

the House of Commons, and declaring that his allegation, to the effect that the society's opposition to proposals in Parliament has been uniformly based on a selfish desire to maintain professional charges of the public interest, is unfounded in fact and is an aspersion upon the honour of the profession of which he is a member. After a series of indignant speeches the resolution was carried with a few dissentients. The Chancellor of the Exchequer has written to the President of the Law Society a letter in which, referring to the resolution passed by the Society protesting against his speech in the House of Commons on July 15, he says that the Society appears to be perturbed by a little criticism, but its attitude is "invariably coloured by the natural tendency of solicitors to keep in their own hands the business which they have conducted in the past." Well, well, the question as to who has greater cause for sorrow, the honourable profession embracing the army of forensic gentlemen, or the public will always remain a moot point. From a purely personal viewpoint, it does seem somewhat strange to the lay mind how it is that the "costs" in certain actions sometimes reach a figure four or five times the amount in dispute. This queer fact has always puzzled ordinary people like myself. And by way of affording no possible loophole to the unfortunate litigant whereby he can avoid the "maw" with the "big stick," the legal fees are jealously "taxed" by the honourable Court. Which fact perhaps considerably simplifies the attitude of the gentle cynic who once said "All lawyers are thieves." And don't forget, gentle reader, that matters of the utmost importance to you are often deferred *ad infinitum* on the slightest pretext, which helps to swell the legal gentleman's fees. Was it not a modern philosopher who solemnly declared that one's family lawyer was about one's worst enemy?

HEARD ON THE PAROIS.

The following anecdote may be of interest to those gentlemen engaged in the work of the saving of souls in the East. Here it goes:—A Salvation Army officer was bicycling fast, along Edgeware Road, and in turning the corner at Praed Street he was run down by a taxi. He was not hurt, but the bicycle was smashed, so he called a constable and violently accused the taxi driver of running him down. The chauffeur protested, and a navy, who had seen the accident, gave independent testimony to the fact that the cyclist was on the wrong side of the road. At this the Salvation Army man pitched a take of excuse and was, ending with the piteous story, "I might 'a bin killed, I might 'a bin killed."

"And what of it?" put in the son of the soil ruthlessly. "Yea stands up at the street corner every night should and prayin' to meet yer Maker, an' the first chance yer gets yer grumbles at it."

CASUAL CRITIC.

CANTON DAY BY DAY.

TANG SHAO-YU'S APPOINTMENT.

[From Our Own Correspondent.]

Canton, 19th August.

A telegram has been received from Peking in which the appointment of H. E. Tang Shao-yu to the Presidency of the Ministry of Posts and Communications in succession to H. E. Hsu Shi Cheong has been confirmed. The telegram further states that H. E. Hsu Shi Cheong has been appointed a Minister in the Grand Council in succession to H. E. Wu Yu Sheng.

DISASTROUS FLOOD.

The members of the Canton Central Relief Committee who were sent four days ago to the Tsung Fa district, where a disastrous flood occurred, to render assistance to the sufferers, returned to Canton yesterday afternoon, and they have now given publicity to a report to the effect that in the flood affected district, a between house, has collapsed in the Wo Chong Kong village, ninety-five in the Tai Kong Po village, three hundred and fourteen in the Fung Yuen village, forty-nine in the Cheung Wo village and sixteen in the Pak Sha village and one or two in many other villages. So far as it is ascertained about a dozen lives are reported to have been lost during the floods there.

CLAN FIGHTS.

H. E. Viceroy Yuan is much vexed at the frequent occurrence of clan-fights in the various districts and has memorialised the Throne for special instructions so as to enable him to mete out condign punishment to the fighters when arrested. H. E. Yuan's memorial on this subject has been sanctioned by the throne and he has therefore issued a proclamation to warn the people that clan-fighting, if occurring in future, will entail severe punishment to the parties concerned.

CANTON-HANKOW RAILWAY.

A Peking telegram received here yesterday states that the Ministry of Posts and Communications has memorialised the Imperial Government for permission to grant Mr. Jem' Tin Yau authority to take up the appointment as President of the Canton-Hankow Railway Company, Canton, so as to please the shareholders of the railway as well as to push on with the work of construction of the railway to its completion without unnecessary delay. If Mr. Jem' a railway expert, is willing to take up the appointment offered him by the railway shareholders. It is expected that he will be able to settle the differences between the shareholders without difficulty.

CHEAP RICE.

The proceeds realised from the distribution of cheap rice in Canton on 16th instant were as follows:—Eastern Shed, \$3,478. Western Shed, \$2,246; Honan Shed \$1,945 and Wongs-sha Shed, \$3,142. The amount realised from the sale of cheap rice to villagers on that day was \$5,183.

The appeal by John Alexander Dickman against the sentence of death passed upon him on July 6, for the murder of John Innes Nisbet, cashier of the Widdington colliery, in March last, has been dismissed. The appeal was made on the ground of misdirection.

COMMERCIAL.

August 20th, 1 p.m.

WEEKLY SHARE REPORT.

Reviewing the share business for the week, Messrs. E. S. Kadoorie & Co. write on 19th inst.—There has been a little more doing in the local market during the 1st week, principally owing to the movement in China Manilla, Hongkong, Canton and Macao Steamboats and Shells.

Rubbers.—The steeling market after some improvement relapses as we close and remains dull with a slightly downward tendency. Singapore experienced some recovery early in the week but there is little evidence of any real strength.

Banks.—Hongkong and Shanghai Banks are still quoted at \$150 but possibly a higher rate would be obtainable. The prices in London have advanced to 290. Nationals are quoted at \$160 with buyers.

Marine insurances.—Cantons have changed hands to some extent. A fair business having taken place at \$6 1/2 and later sales at \$10 have been made. Unless continue weak with sellers at \$4. North Chinas are in demand at \$115, but there are no shares obtainable unless the price advances. Yangtze are reported sold in the North at \$105.

Fire insurances.—China Fires are unaltered at \$11. Hongkong Fires have slightly weakened, sales having occurred at \$145.

Shipping.—Hongkong, Canton and Macao Steamboats have been in good request and the price has advanced to \$35. It is understood that the arrangement between the different Companies to pool the profits has been renewed for a further period of twelve months. China Manillas have experienced a sharp rise on the report being made public that the steamers are being transferred to the American flag and as high as \$14 has been paid for shares. It is rumoured that the arrangement will include a subsidy from the Philippine Government. We understand the idea is to run a Mail Service between this port, Manila, Cebu and Iloilo. Douglas Steamships are offering at \$37. Indo Chinas have further receded and are now obtainable at \$50. Star Forles continue on offer at \$24 and the new shares, \$17. Shell Transports have been the medium of a large business and shares have been sold as low as \$9 1/2. As we close the market is stronger with possible buyers at 9 1/2.

Refineries.—China Sugars continue at \$167 without any business reported. Mining.—Raub's have been booked at \$7 and \$7 1/2 closing with sellers at the former rate. Decks, Wharves, and Godowns.—Sales of Hongkong and Whampoa Docks have taken place at \$50 1/2, \$50 1/2 and \$51, there are more buyers at the latter rate. The Report for last half year's working shows a profit of \$16,174.14 which together with the amount carried forward from the previous account, viz. \$13,765.93 leaves the sum of \$29,940.06 available. The amount set aside for cost of enlarging the No. 1 Dock, viz. \$121,000.00 has now been transferred to reserve, as the expenses for this purpose have come out of revenue. Shanghai Docks are still quoted at Tia 76. Hongkong and Kowloon Wharves can be placed at \$54 Shanghai and Hongkong Wharves are reported to have been sold at Tia 214.

Land, Hotels and Buildings.—Hongkong Lands have again been sold at \$98 and close in demand. Humphreys Estates are obtainable at \$12. West Point can be had to a small extent at \$30 while Kowloon Lands have probable buyers at \$32. Hongkong Hotels have been sold at \$103; but there are no more shares offering at the rate. The new shares are unchanged at \$32.

Cotton Mills.—Hongkong Cottons are steady at \$5. According to advices received from Shanghai all Cotton Mill shares are unaltered.

Miscellaneous.—China Borneos are obtainable at \$7. China Providents have buyers at \$81. Green Islands have again weakened and are on offer at \$6. Hongkong Electric is still in favor and are asked for at \$10. China Lights have sellers at \$140. Hongkong Ropes have been booked at \$11 and Watsons at \$61. Union Waterboats are inquired for but there are no shares coming out at present rate offering.

Exchange.—The Bank's drawing rate on London is 1/8 on demand and the T. T. rate on Shanghai is Tia 74 1/2.

FREIGHT MARKET.

Messrs. Lamke and Rogge write in their fortnightly circular of 20th inst.—The freight market during the past fortnight has been in every direction dull and inactive. As will be seen from the list of settlements overleaf only a very small business has come to pass chiefly made up of coal fixtures to neighbouring ports. Since the last week our market is bere of orders. Several boats lately employed in the Cattle trade between Wyndham (Australia) and the Philippines ending their charter at Manila have not been taken up again as charterers have now surplus-tonnage on hand, owing to the Government prohibiting further importation of Australian cattle, to which reference was already made in our last report. Three vessels are now laid up at Manila for want of paying employment.

Business generally is suffering severely by the financial crisis in China and the outlook for any material improvement in the near future is not very promising if the North does not give regular liners sufficient employment. We are glad to say that latest news to hand state that the Rivers have risen considerably owing to the recent rains, so cargo should come forward more freely. Fixtures have already been done from Wuhu and Chiochiang to Swatow at 18 candelars, "li" terms.

Salgon/Hongkong. There is very little moving in this direction and rates show a considerable falling off. The nominal quotation now stands at 6 cents per picul, which rate regular liners are accepting for part cargoes.

Salgon/Philippines. Only one fixture has taken place in the interval, the small s.s. *Finnis* accepting a cargo for Cebu at a rate as low as 20 cents per picul. s.s. *Phayun* and *Maudun* have just loaded a cargo at Salgon for Manila and s.s. *Kanlung* is now loading 30 1/2, 500 piculs also for Manila, so there is not much chartering expected this month.

Salgon/Java.—A few charters have transpired at the rate of 22 1/2 cents per picul.

Java/Hongkong.—Money being locally very tight, prompt purchases of sugar are not to be anticipated, consequently sugar freight Java/Hongkong for "outsiders" is a dead letter.

Newchwang/Canton.—Another timechartered boat, the s.s. *Ulu* originally taken up for the regular run has been compelled to find employment in other directions owing to the bad state of the local bean market, thus there has been no outside chartering done in this line.

Coal freights.—The market is very dull and very little business reported. Japanese tonnage has been secured from Japan to this at \$1.50 per ton.

Fixtures reported Wakamatsu/Swallow, *Privates* terms, 10,000/10,000 Sigo. Port Courbet/Swallow \$1.50. Broeketon/Sadong to Singapore for 10,000/10,000 Sigo. 3 consecutive trips, private terms.

Time-Chartering.—We hear that the Norw. s.s. *Heim* has been again taken up in charter down south, further details are as yet not to hand.

Sail Tonnage loading or to load. For Baltimore and New York Brit. barque *Arroa*, 2,974 tons net reg., to load in September/October. Brit. ship *Julosfolli*, 2,652 tons net reg., to load in November/December.

Sail Tonnage Disengaged.—None. Departures of Sailors.—None.

Events Coming.

Saturday, 20th August.
Aqualic F&C; V.R.C., 9 p.m.

Monday, 22nd August.
Sale of Condemned and Obsolete Stores, Police Compound, 11 a.m.
Hongkong & Whampoa Dock Co. meeting, at noon.
Geo. P. Lammer, auction sale of furniture, at 3 Knutsford Terrace (Kowloon), 2.30 p.m.

No Claims will be admitted after the Goods have left the Godowns, and all Goods remaining undelivered after the 26th instant will be subject to suit.

All Claims against the Steamer must be presented to the Undersigned on or before the 18th prox., or they will not be recognized.

All broken, chafed, and damaged Goods are to be left in the Godowns, where they will be examined on the 26th instant, at 2.30 P.M.

No Fire Insurance will be effected.

Bills of Lading will be countersigned by
DODWELL & CO., LIMITED,
Agents.
Hongkong, 20th August, 1910. [548]

A MODERN CRUSOE.

TWO YEARS ON A LONELY ISLAND.

In the Probate Division of the London Courts last month an application was made to presume the death of John Willis Kirkaldy, who emigrated to New Zealand in 1885. Mr. G. W. Powers, on behalf of two applicant brothers, stated that Kirkaldy corresponded regularly with his family till 1892, when he was wrecked on an uninhabited island of the Solomon group, about fifty acres in extent, and was a veritable Robinson Crusoe.

The President: Was there a Friday?
Counsel: Yes, in the prison of one Van Drun, who was shipwrecked with him. There were turtles on the island.

Continuing, counsel said that Kirkaldy remained on the island for about two and a half years, when a passing vessel put in for water and took him off.

Several letters were subsequently received from him. The last was dated in 1895.

His Lordship perused the letters, and said that apparently the writer gave more details about the "island" which he suffered from than about the island.

The President gave leave to swear the death as occurring in or since August 1895.

In order to secure solid results in the matter of opium prohibition, a native dispatch says that Prince Kung, Anti-Opium Commissioner, intends to ask the Throne to appoint H.E. Ting Chen to be his colleague as Supervisor-General of opium prohibition, and that he should be ordered to tour through all the provinces and inspect conditions with regard to opium.

A CROCODILE attacked one of the Government survey mandoroes while out surveying on 18th inst. at 6 1/2 mile, Ponggol. It seized him by the left leg below the knee inflicting several deep wounds. The injured man has been sent to the General Hospital for treatment. The brute was subsequently shot by the surveyor of the party, Mr. Jacob Ali Khan, and was brought to the Survey Office. It measured nearly 12 feet in length.

TANSAN

has received the highest award—

A GOLD MEDAL

from a committee of critical judges at the Anglo-Japanese Exhibition

which testifies to its excellence and purity.

Beware of Bogus imitations. No Tansan is genuine unless the label

bears the name of

J. CLIFFORD-WILKINSON.

Tansan raises the spirits and exalts sanguine anticipation, even as a flagon of wine exhilarated the monks of old.

"For the good friar of orders grey
Would have waved the flagon of wine away,
And consoled himself as any man can
With bubbling sparkling cool Tansan."

SANITARY BOARD.

NOTICE.

THE SANITARY BOARD desires to enlist the assistance of the public in their efforts to reduce the number of mosquitoes in the neighbourhood of dwelling.

Mosquitoes convey malaria and other diseases and are therefore a danger to the public health.

Any standing water therefore within or in the neighbourhood of a house is an encouragement to the breeding of mosquitoes.

Vases and pots in which flowers or green plants are kept alive with water are often found to contain these larvae, unless the water is changed every day or old pots and tins in the garden or alongside the servants quarters will hold rain-water for days and should be collected and buried or put in the dust-bin; the gardener's tank or tub from which he takes water for the garden should be thoroughly emptied and dried every day; while some carbolic disinfectant should be used daily for the drains and channels as the water in the traps may otherwise serve for the breeding of mosquitoes.

Bamboo which becomes broken by high winds will often be found to contain rain water in which mosquitoes are breeding; all broken bamboo should therefore be sawn through at the level of a node, so as to avoid the formation of an open cup, or the broken bamboo should be cut down or rooted up.

By Order,
W. BOWEN-ROWLANDS,
Secretary.
